SPANISH COMPANIES AT AACC 2013

CERTEST BIOTEC, is an established independent biotechnology company focused in development, production and marketing of high-quality immunodiagnostic assays for infectious diseases:

Virology: Rotavirus, Adenovirus, Astrovirus, Norovirus, Hepatitis A, RSV and Influenza A+B.

Bacteriology: Streptococcus group A, E. coli O157:H7 and H. pylori.

Parasitology: Cryptosporidium parvum, Giardia intestinalis and Entamoeba Histolytica.

Mr. Enrique Merino • emerino@certest.es

LINEAR CHEMICALS, manufactures all ranges of IVD reagents and instruments like Biochemistry, Serology and Bacteriology Kits, including Febrile Antigens and Immunology (like iFOBT); Elisa, Coagulation and ESR instruments and related Tubes.

Products: immunology turbidimetric latex (ifobt) serology.

ERS: intruments & tubes clinical chemistry analysers, automated and photometers, clinical chemistry reagents.

Coagulation: reagents and instruments.

Mr. Michele Premi • mpremi@linear.es

QCA, was founded in 1969, the company has kept in a continuous growing process reaching the current status of being known worldwide.

Product range going from the classical Clinical Chemistry to a complete Stains line along with a very extensive Immunology kits list, as well as Hemostasis items, makes QCA's offer one of the most complete of the market. This, along with a continuous QA concern of its production systems, makes it a very reliable company in the IVD field.

Mr. Jordi Galilea • jgalilea@qca.es

CHEMELEX, develops and produce clinical diagnostic in vitro reagents since 1992 and its present in more than 40 countries. The main premise of our company has always been the manufacturer of high quality reagents and to offer the best service to the customer. Chemelex is ISO 9001-2000 certified, and most of our products are CE marked.

Mr. Jose Garcia • jose@chemelex.es

SPINREACT, is a manufacturer for vitro Diagnostic Reagents has presence in more than 100 countries. It belongs to Contateno group which allows to provide a wide range for drugs of abuse testing.

Products lines: Biochemistry: Substrates, Enzymes, Lipids, Controls and Calibrators, Serology, Immunochemistry, Turbilatex, Coagulation, One step, Blood grouping and Instruments. All of them are produced according ISO 9001 and ISO 134853 standards.

Mr. Josep Puig • jpuig@spinreact.com

OPERON, manufacture our own Monoclonal Antibodies and Recombinant Antigens.

Products: RAPID TESTS with coloured bands! For:

- Human diagnostics: celiac disease, infectious diseases (Rotavirus, Rota-Adeno, Giardia, Crypto, Crypto-Giardia, HBsAg, Chagas), tumour markers (PSA, AFP, FOBT) and hCG.
- Food and feed: Gluten, c-GMP (whey in milk) LisaKIT, ELISA for PSA, AFP, TORCH. OpeGen Molecular Biology kits: ThromboStrip, HemochromaStrip, LactoStrip, Papillomavirus. OEM products available.

Ms. Isabel Ruiz • iruiz@operon.es

VIRCELL, is a biotechnology company founded in 1991, dedicated to produce kits for the diagnosis of infectious diseases by different techniques. Presents in more than 60 countries, fulfil ISO standards.

Products: Ready-to-use ELISA and IFA kits for antibody detection / Brucellcapt® for the diagnosis of chronic brucellosis / Cell lines and MAB kits / Lyophilised PCR controls / Speed-oligo, quick visual oligochromatography.

Mr. Benigno Neira • bneira@vircell.com
